

## DISSEMINATION ACTIVITIES in Turkey

1. We prepared leaflets to introduce the Project to the students , parents, local communities, and other schools. Thus, everybody had an idea about the project and the activities.

2. We created Project information part on our school web page to inform others about the ongoing events and visits of the partner countries. Moreover we created a twitter account to share the activities with others and our National Agency.
3. We prepared a project corner to give information about the partner countries and the activities.
4. We created some questionnaires about the expectations of the students from the project and about choosing the students for the visit to Greece. After choosing the students and the teachers to Greece, they wrote their feelings and expectations of the visit. Also after the visit, these students and teachers wrote their experiences in Greece. As well as writing a project diary, the students created a powerpoint presentation about the visit to show how was to be in a different country and know a different culture, education system and lifestyles.
